 Islamabad, Pakistan

 sumaid-ahmed-ab0386388

WORK EXPERIENCE

Axeronix Tech

Ethical Hacker Intern

July 2026 - Present

- Supported hands-on-security engagements across ethical hacking, penetration testing, and web application security.
- Performed reconnaissance and vulnerability assessments across web, network and applications surfaces and deepened practical command of exploitation and bug bounty methodology through structured security labs and real-world scenarios.

SafeXsolutions

Cyber Security Intern

June 2026 - Sep 2026

DevLink - Software Development Agency

Team Lead R&D

- Conducted hands-on cybersecurity research and security assessments covering passive reconnaissance, DNS/email security, cryptographic weaknesses, and client-ready security auditing.
- Built security-focused tools and reports, including a DOC-style monitoring dashboard, while documenting findings, risk, mitigations, and professional security recommendations

EDUCATION

Air University, Islamabad

Bachelor of Science (BS) in Computer Science

16 September, 2025 - Present

- Computer Science student with a focus on Cybersecurity and Ethical Hacking.

Harvard College of Commerce & Science, Rawalpindi

Intermediate in Computer Science

15 August, 2023 - March 2025

- Completed ICS with coursework in programming.
- Focused on programming, computer fundamentals

Islamabad Model College for Boys G-10/4, Islamabad

Matriculation

2021 - 2023

PROJECTS

Anti-Sleeping Alarm

- The project focused on detecting prolonged eye closure and triggering safety alerts through embedded system logic and real-time monitoring

Online Grocery Store

- Developed a console-based Online Grocery Store Management System in C++

Smart Parking System

- Developed a Smart Parking System using Arduino Nano, IR sensors, ultrasonic sensor, and digital logic ICs for automated parking detection and barrier control.

SKILLS

- Cybersecurity
- Networking
- Red Teaming
- Vulnerability Assessment
- Penetration Testing
- Web Application Security
- Capture The Flag (CTF) Challenges

Certified Web Red Team Analyst (Web-RTA)

- Exploitation of vulnerabilities such as injections, authentication and authorization failures, SSRF, file inclusion and insecure deserialization. Attack in authentication and session mechanisms (OAuth, JWT, and cookies), identify escalation and elevation of privilege paths.

Cyber Threat Intelligence 101

- Earned the Foundation Level Threat Intelligence Analyst certification from arcX, gaining foundational knowledge in Cyber Threat Intelligence (CTI), threat analysis, the intelligence cycle, and cybersecurity operations.

Certified Cybersecurity Educator Professional

- This test has strengthened my knowledge of cybersecurity principles, attack and defence strategies.

Certified in Cybersecurity Skills & Concepts

- Credentials 1288-6233-4631-2847

ISO/IEC 27001 Information Security Associate™
